Going To The Dogs?

# So, you want to make a living working with dogs?

## Great idea!

You'd be joining a growing industry. 68% of U.S. households own a pet, and 71% of those 84.6 million homes includes at least one dog. What's more, spending on pets continues to rise, climbing by billions of dollars each year.\*

## But wait a minute.

A love of animals—let's assume you have that in abundance—is not enough to succeed in a market that's becoming more competitive every day.

Have you done your research? Examined your options, financial and personal? Asked yourself the tough questions? Here are **three of the most important ones to answer.**

### **Pet & Dog-Services Industry Trends**

#### ***The pet services sector keeps growing.***

The American Pet Products Association estimates more than \$5.5 billion was spent in 2016 on the manners, exercise regimes, spa visits, play time, and vacation care of the nation's dogs, despite the tough economy. This number is expected to continue to grow in the years ahead.

#### ***More people write online reviews.***

With the integration of review sites like Yelp and Next Door, more people are commenting on service providers through ratings, reviews, likes, follows, etc. And their opinions—favorable or damaging—are accessible to all.

#### ***Pet health-care interest is on the rise.***

We have come to view pets as our furry children, and this attitude translates into greater spending on our pets' health and general wellbeing. Premium foods, alternative health therapies (massage, acupuncture, etc.), and expensive procedures like MRIs and hip replacements are surging.

#### ***Pet-related businesses are getting Internet savvy.***

After years of homemade websites with broken links, barking dogs, and paw-print wallpaper, pet businesses are catching on to the commercial advantages of professional design, content, and usability.

# Question 1

*Job or Self-Employment?*

# Job or self-employment?

## The role of temperament.

Your own personality is a central factor in this decision. Owning a business means wearing several hats, usually all at once. For some, being service provider, customer service rep, salesperson, bookkeeper, marketing director, CFO, and janitor can feel overwhelming. Of course, as you grow you'll hand many of these tasks out. But in the beginning it's a lot to juggle.

Before choosing self-employment, ask yourself if you possess:

Doggedness (no pun intended).

The ability to keep the big picture in mind.

The ability to fight through discouragement.

A level of discipline that allows you to plod forward each day.

## Types of jobs available.

Factor into your decision that most jobs in the dog service industry are entry level—daycare attendant, dog walker, pet sitter, kennel attendant. These positions allow for a lot of dog interaction, but pay is modest to poor. In some areas of the country compensation may not rise above minimum wage. In areas where pay is better it is still far below a professional wage.

Management level jobs exist, but are rare. Some daycares and training facilities employ managers, and occasionally there's an opportunity for a trainer to take a professional position at a prominent shelter, but these are few and far between.

### ADVANTAGES: A JOB

Regular paycheck

Less responsibility

Easier hours

### ADVANTAGES: YOUR OWN BUSINESS

You're in charge

You decide how animals will be treated

You make your own hours

Opportunity to make much more money

# Question 2

*How Much Money Do I Need?*

# How much money do I need?

## That depends...

Compared to most industries dog service businesses have very low start-up and overhead costs.

Having said that, each business is different and the money needed ranges widely depending on the type of service and whether or not a facility is involved.

The good news is that roughly 90% of the clients we work with are able to open their businesses without having to borrow money.

---

## START-UP COSTS TO CONSIDER

### Vehicle (if needed)

### Facility (if using)

- initial lease money down or down payment for purchase
- build-out costs

### Communication

- phone installation and/or cell phone purchase
- initial internet fees—service installation

### Education

- school and seminar fees
- books and DVDs
- business coaching support

### Initial Marketing

### Professional Fees & Assistance

- paperwork fees
- contracts
- accountancy support\*
- lawyer, if using (not necessary in most cases)

### Office Supplies

- hardware—computer, printer, etc.
- software—Quickbooks Pro, kennel software if needed, etc.

### Dog Supplies

- trainers—training tools
- walkers—leashes, tags, first aid kit, etc.
- sitters—toys if using
- daycares—beds, dishes, toys, training aids, first aid kit, etc.

# How much money do I need?

“Many dog pros can open businesses without having to borrow money.”

## ONGOING COSTS TO CONSIDER

### Vehicle

- maintenance
- gas

### Facility (if using)

- lease or mortgage
- utilities
- phone
- repair and maintenance
- insurance

### Communication

- cell phone

# Question 3

*Which School To Choose?*

# Which school to choose?

## Do you want to be a dog trainer?

The schools we list here all teach scientifically sound, ethical, and humane training practices. Each is highly respected within the training industry and offers different strengths, experiences, and skill sets. Trainers often attend more than one school.

Before you choose, take these variables into account: Cost, location, length of time, and the type of experience you're after.

\$	under \$1,500
\$\$	\$1,600-3,500
\$\$\$	over \$3,500
